

SLED DAY #9—GRADE LEVEL: 11

A TOTAL OF **THREE** ACTIVITIES SHOULD BE COMPLETED.

STUDY ISLAND

<u>Dual Credit</u>: Only applies to students who are taking Dual Credit classes during the time of the SLED day. Must provide documentation of the work completed. This option can be used for the number of Dual Credit courses a student is enrolled in.

Read 180: Only applies to students who are currently enrolled in the Read 180 program. This option can only be used once per SLED day.

Apex Learning: Only applies to students enrolled in Apex courses. This option can be used for the number of Apex courses a student is enrolled in.

MATH

Write a paragraph explaining your answer on a separate sheet of paper.

Question 1: If a gumball is randomly chosen from a bag that contains exactly 6 yellow gumballs, 5 green gumballs, and 4 red gumballs, what is the probability that the gumball chosen is NOT green?

Question 2: The formula for the volume, V, of a sphere with radius r is $V=(\frac{4}{3})\pi r^3$. If the radius of a baseball is $1\frac{1}{3}$ inches, what is the volume to the nearest cubic inch?

ENGLISH

The climax of a work of literature is when all of the events come to a breaking point. Using a piece of literature that you know, explain the events that lead to the climax, what happens at the climactic scene, and how the story changes after the climax. Write at least a half page on a separate sheet of paper.

SOCIAL STUDIES

How did Germany come to be a divided nation after World War II? Write at least a half page on a separate sheet of paper.

SCIENCE

Temperature can have an impact on molecular action. How might treating a fever with medication affect the effectiveness of the proteins of the immune system? Write at least a half page response on a separate sheet of paper.

ELECTIVE

Read an article from

https://www.studentnewsdaily.com/ and type an email to your 1st period teacher about what you learned from the article. Include the title of the article in your email.
